A Virtual Online Textbook: Each of the lessons listed is linked to an online worksheet and interactive game that helps students master the content.

# Level 5 suggested teaching program

This suggested teaching program will assist teachers to plan the delivery of primary mathematics content and ensure that all *strands*, *substrands* and *content descriptions* are addressed.

The pages in this program are supported by many other consolidation and extension worksheets that can be found within Maths Builder. For this program, we have selected the worksheets that will provide work that can be covered in a single year.

Clicking on the link beside each worksheet will take you to its online landing page, where the associated interactive game, related resources and the crossreference to the development of the worksheet content will be found.

This program is based on 35 weeks of work with an average of five lessons per week. The area covered by each page is indicated by the grid on the right-hand side of the program.

### Abbreviations used in this program

Whole Numbers	WN	Area	Α
Addition and Subtraction	A&S	Volume and Capacity	V&C
Multiplication and Division	M&D	Mass	M
Fractions, Decimals and Percentages	FD&P	Time	T
Probability (Chance)	P(C)	3D Space	3DS
Patterns and Algebra	P&A	2D Space	2DS
Statistics (Data)	S(D)	Position (Direction and Coordinates)	P(D&C)
Length	L	Working Mathematically	WM
